

Created using SoccerTutor.com Tactics Manager

Procedure:

Player A passes up to Player B, who plays it back to Player A. Player A passes the ball outside to Player D in the corner. Player D dribbles past the defender to the end line, and sets the ball back for Players B, C, and E to finish. Player B looks for the pass played straight back. Player C runs to the penalty spot. Player E looks to finish the pass thru the six-yard box. During the drill, the players rotate from A to B to C to D to E to A, and the ball starts from the right or left.

Coaching Points:

- 1 Crossing – Fake a cross before turning the corner and taking the ball down the end line.
- 2 Timing the Runs – Hold the runs to goal if extra touches are taken during the sequence.
- 3 Communication – Call your teammates off of the cross if it's your ball to finish.

*The concept for this session comes from the drills library of Ryan Hall
